

North Brunswick Police issues car burglary warning

Attention Residents: As the warmer weather arrives, so have the crimes of opportunity that come along with it. Again, we plead for you to lock your car doors and remove valuables from your vehicles. Car burglaries are on the rise lately, and in each case it seems the vehicle was left unsecured. Items from loose change to laptops are being taken.

Help us and protect your hard earned property by taking a second to lock your car doors. The areas most recently affected are Society Hill, North Oaks Boulevard, and along the neighborhoods adjacent to Route 130 nearest Route 1. All entries have been during the overnight hours.

See something, Say something... report any suspicious persons to the Police.
