

CERTIFICATION OF DISPOSAL OF BUILDING MATERIALS AND CONSTRUCTION DEBRIS

This certification is subject to Chapter 187-5 Solid Waste
"Collection Procedures and Policies"

The Township of North Brunswick does not collect lumber, shingles, wallboard, or other building material or debris that comes from a project requiring a construction permit.

Only the collection of water heaters is permitted by scheduling a bulk pick-up from the Department of Public Works.

I, _____,

herby certify that I am aware that the township does not collect building materials and debris associated with a construction permit, and that I will otherwise be responsible for removing and disposing of all items from a construction site. Accordingly, a dumpster will be placed on the property and a private hauler will remove construction material and debris, or I will arrange to have such material removed from the site in another manner.
