WHEREAS, the Division of Information Technology deemed it necessary to replace the servers hardware and software along with various components; and

WHEREAS, these upgrades will provide an increase of speed when accessing data and programs, maintain the integrity of municipal data, and allow for anticipated growth of the system; and

WHEREAS, the cost of this project will be funded existing General Capital Ordinance 19-23; and

WHEREAS, IT Network Solutions has provided a proposal to provide said services and software, excluding hardware which shall be procured by the Township, in the amount of \$155,543.00 for Microsoft software and office licensing and \$85,588.50 for implementation services; and

NOTE: Please be advised that this opinion of probable construction values is very preliminary. A more detailed estimate can be produced once more information is produced regarding the scope of the improvements. Opinions of probable construction values are prepared based on the Architect's experience and qualifications. These represent the Architect's judgment as a professional generally familiar with the industry. However, since the Architect has no control over the cost of labor, materials, equipment or services furnished by others, over contractor's methods of determining prices, or over competitive bidding or market conditions, the Architect cannot and does not guarantee that proposals, bids, or the actual construction cost will not vary from the Architect's opinions or estimates of probable construction values.

Section 2. In order to finance the cost of the improvement or purpose, negotiable bonds are hereby authorized to be issued in the principal amount of \$10,000,000 pursuant to the Local Bond Law, constituting Chapter 2 of Title 40A of the New Jersey Revised Statutes (the "Local Bond Law"). Section 4. All bond anticipation notes issued hereunder shall mature at such times as may be determined by the Chief Financial Officer; provided that no bond anticipation note shall mature later than one year from its date. Such report must include the amount, the description, the interest rate and the maturity schedule of the bond anticipation notes sold, the price obtained and the name of the purchaser.

Such statement shows that the gross debt of the Township as defined in the Local Bond Law is increased by the authorization of the bonds and bond anticipation notes provided in this bond ordinance by \$10,000,000, but that the net debt of the Township determined as provided in the Local Bond Law is not increased by this bond ordinance. The obligations authorized herein will be within all debt limitations prescribed by the Local Bond Law.

(d) An aggregate amount not exceeding \$2,000,000 for items of expense listed in and permitted under N.J.S.A. 40A:2-20 is included in the estimated cost indicated herein for the purpose or improvement.

The amount of obligations authorized but not issued hereunder shall be reduced to the extent that such funds are so used.

Section 8. The Chief Financial Officer of the Township is hereby authorized to prepare and to update from time to time as necessary a financial disclosure document to be distributed in connection with the sale of obligations of the Township and to execute such disclosure document on behalf of the Township. The Chief Financial Officer is further authorized to enter into the appropriate undertaking to provide secondary market disclosure on behalf of the Township pursuant to Rule 15c2-12 of the Securities and Exchange Commission (the "Rule") for the benefit of holders and beneficial owners of obligations of the Township and to amend such undertaking from time to time in connection with any change in law, or interpretation thereof, provided such undertaking is and continues to be, in the opinion of a nationally recognized bond counsel, consistent with the requirements of the Rule. In the event that the Township fails to comply with its undertaking, the Township shall not be liable for any monetary damages, and the remedy shall be limited to specific performance of the undertaking.

Section 9. The full faith and credit of the Township are hereby pledged to the punctual payment of the principal of and the interest on the obligations authorized by this bond ordinance. The obligations shall be direct, unlimited obligations of the Township, and the Township shall be obligated to levy ad valorem taxes upon all the taxable property within the jurisdiction of the Township for the payment of the obligations and the interest thereon without limitation of rate or amount.

§ 184-4. Applicability, means of collection subsection B is amended to read:

B. An automated collection system shall be used where designated by the Township. In those parts of the Township where the automated collection system is not functional, the Director of Public Works or his or her designee, shall determine whether the alternate means of collection shall be by bulk container or standard watertight containers.

§ 184-5. Collection Procedures and Policies is amended to read as follows:

- A. Automated collection carts.
 - 1. Garbage shall be placed in the automated collection carts provided by the Township for that purpose. Each residential use within the Township that is having its solid waste collected at the curbside by the Township as of the effective date of this chapter, and every future residential use where the automated collection system is determined feasible by the Director of Public Works or his or her designee, shall receive one ninety-five-gallon cart for each dwelling unit in the building. This automated collection cart shall be and remain the property of North Brunswick Township and shall stay with the dwelling unit it was assigned to, regardless of resale, rental or other conditions.
 - 2. Each owner/renter may purchase from the Township one additional automated collection cart for each dwelling unit. Such automated collection cart shall be and remain the property of the individual making the purchase.
 - 3. Each automated collection cart shall be placed for collection at the curbside in a location designated by the Township for collection, which shall be a minimum of three feet away from any obstruction to the automated collection vehicle.
- B. Nonautomated collection containers. In those parts of North Brunswick where the Director of Public Works or his or her designee, determines that the

automated collection system is not functional, garbage shall be placed in watertight plastic or metal containers with a volume not to exceed the total volume of two ninety-five-gallon automated collection carts. All other provisions of this chapter shall apply to such properties. Said receptacles shall be free from protruding nails, wires or sharp and dangerous substances of any kind, and no single receptacle, together with its contents, shall be of a greater weight than 40 pounds.

- C. Bulk containers. The Director of Public Works or his designee, may also designate areas for collection by bulk containers.
- D. Location of containers and materials. All materials and containers, other than bulk containers and the automated collection carts provided by the Township, shall be at the curbside. At no time shall materials be placed at the curbside in a manner that presents a hazard to the public health, safety and welfare, or that hinders normal vehicle or pedestrian traffic.
- E. Yard Waste. Yard waste, excluding brush and leaves, may be placed in the automated collection carts hereinbefore set forth so it may be readily emptied into municipal collection vehicles. At no time may grass clippings, leaves, brush or yard raking be placed loose or in piles at the curb, on sidewalks, gutters or streets where the same may be dispersed by wind, stormwater runoff, forces of nature, passersby or traffic, except as specified herein.
- F. Leaves. Leaves shall be placed in biodegradable paper bags. Collection will be between the months of October and December as routinely scheduled by the Township. Each biodegradable bag shall not weigh more than 40 pounds.
- G. Grass clippings.
 - 1. Residents are encouraged to recycle grass clippings year-round by use of a mulching mower.
 - 2. Alternatively, grass clippings may be included along with household solid waste on regular automated refuse collection days. For control and elimination of odorous residues, grass clippings must be contained in plastic trash or lawn bags before placing in the solid waste automated cart.
 - 3. Grass will not be collected as a bulk pickup.

- H. Brush. Tree trimmings, hedge clippings and similar materials commonly referred to as "brush" shall be put at the curb in lengths not to exceed four feet and securely tied in bundles not more than two feet thick and/or 40 pounds in weight. Contracted brush removal debris shall be bundled as required by this chapter or otherwise disposed of by the contractor. Collection of brush shall be by appointment only.
- I. Tree and large branch removal. Contracted tree removal debris shall be bundled as required by this chapter or otherwise disposed of by the contractor. However, trunks and large branches exceeding five inches in diameter shall require special consideration for disposal, by appointment only. Trunks and large branches exceeding five inches in diameter that are a result of contracted work shall be disposed of by the contractor.
- J. Bulk materials, scheduled bulk pickup. Bulk materials that are not recyclable as white goods, such as carpeting, sheet flooring, small furniture and other bulky household items that are too large to be disposed of in the automated collection cart, shall be collected at the curb as follows:
1. Bulk collection is by prescheduled appointment only. Each resident will be limited to five (5) bulk collections per year.
 2. Collection volume per appointment is limited to two cubic yards, or three feet by three feet by six feet. (Two cubic yards roughly equals capacity of four ninety-five-gallon automated refuse carts.)
 3. Large items of furniture, such as couches, easy chairs, etc., shall be limited to three items per collection.
 4. Mattresses and box springs that are placed curbside for bulk collection shall be wrapped in plastic or placed in disposable plastic bags. Plastic wrapping or plastic bags must be sufficient to cover all exposed areas of the mattress and box spring. The plastic wrapping and/or disposable plastic bags are required to avoid, to the greatest extent possible, Township employees from coming into contact with bedbugs or bedbug-infested materials.
 5. Furniture, mattresses or box springs or other items placed curbside for bulk collection that are infested with bedbugs may be refused pickup for bulk collection in the absolute discretion of the Director of the Department of Public Works or his designee.
- K. Carpeting. Carpeting, sheet flooring and other like materials shall be put at the curb on bulk collection days that have been previously scheduled by appointment. Material shall be cut into lengths not to exceed four feet and securely tied in bundles not more than two feet thick and/or 40 pounds in weight. Collection is by prearranged appointment only.
- L. Furniture. Furniture shall be placed at the curb on bulk collection days that

have been previously scheduled by appointment. Hide-a-beds with metal frames shall be disassembled to separate the metals from the frame elements. A prescheduled bulk collection appointment shall be arranged for the nonmetallic frame materials, and a separate prescheduled white goods collection appointment shall be arranged for the metals.

- M. Wooden fencing. Wooden fencing, including stockade, picket and others, shall be cut into pieces not to exceed four feet by two feet and placed at the curb for disposal on bulk collection days that have been previously scheduled by appointment.
- N. Construction materials, Class #1. Permitted collection volume for Class #1 materials shall be limited to two cubic yards per appointment. Lumber, wallboard or other building material or debris from a project that does not require a Township permit shall be stacked and securely tied in bundles of not more than four feet in length and/or 40 pounds per bundle. Protruding nails, screws and other sharp fasteners shall be removed from construction materials prior to placing them out for collection, which shall be previously scheduled by appointment only. Window casings shall have the glass panes removed and the glass separately packaged to render it free of hazard. All Class #1 construction materials must originate from the property upon which the refuse is placed for collection. None of the above-mentioned refuse shall be brought from off site for collection.
- O. Construction materials, Class #2. The disposal of lumber, wallboard or other building material or debris that comes from a project requiring a permit from the Township shall not be subject to municipal collection.
- P. The Township does not collect any type of shingles.
- Q. Hours, frequency and days of collection. The day or days of collection shall be established by the Township and appropriate notification shall be provided.
 - 1. All items to be collected and/or containers to be emptied shall be placed at the curb no later than 6:00 a.m. of the collection day.
 - 2. Automated collection. Automated collection shall take place weekly. When holidays fall on the automated collection date, collection will take place on an alternate day as specified by the Department of Public Works.
 - 3. Bulk collection. Bulk collection shall take place by appointment only.
- R. Restriction on placement at the curb. No person shall place any container or material at the street more than one day prior to the day designated for

collection, and all empty containers shall be removed from the street by 8:00 a.m. on the morning following the day of collection.

- S. Existing collection of nonresidential properties. The Township shall continue to collect a limited amount of solid waste from each nonresidential property that is having its waste collected curbside by the Township in noncontainerized receptacles as of the effective date of this chapter. Said property owner shall receive one ninety-five-gallon cart. This automated collection cart shall be and remain the property of North Brunswick Township and stay with the owner it was assigned to regardless of resale, rental or other conditions. Each such commercial property owner may purchase from the Township one additional automated collection cart for garbage collection. Such automated collection cart shall be and remain the property of the individual making the purchase. The Township shall not collect any containerized receptacles from nonresidential properties as of the effective date of this chapter, with the exception of the uses specified in § 184-4A (3) herein.
- T. Dangerous materials. No dangerous or environmentally injurious material, highly volatile or explosive matter, either in liquid, gaseous or solid form, shall be placed or set out for collection either by itself or in connection with any other garbage, trash, waste, rubbish or other refuse material. No person shall place in any receptacle any garbage, refuse or material that would detrimentally affect the environment and/ or pose a risk of injury to those persons charged with the collection of such material.
- U. Disturbing receptacles. After materials have been placed at the curbside for collection, no person shall scavenge or disturb the same or upset any such receptacle in the street or cause the matter contained therein to be scattered or deposited in the street prior to its being collected by the persons authorized to do such work.
- V. Overturned containers or scattered refuse.
 - 1. The person or persons by whom such solid waste has been placed or caused to be placed in the street for collection shall be responsible for the same until it is collected by persons authorized to do such work, and in the event that any of the contents of said receptacles are previously removed and deposited or scattered in the street, the persons who placed said receptacles in the street for collection, or caused the same to be so placed shall, as promptly as possible, cause such matter to be placed in said proper receptacle.
 - 2. If any container or garbage is upset or overturned by a Township employee, that person shall immediately collect such garbage and

dispose of the same.

§ 184-7. Restrictions on collection is amended as follows:

- A. When any of the items referred to in § 184-5 hereof are placed at the curbside, it shall be assumed that the same are so placed for municipal garbage and refuse collection and disposal. However, the Township shall not be obligated to collect any garbage or other materials left in a manner not in full compliance with the regulations provided herein.
- B. There shall be no collection of any solid waste items unless and until such items are prepared for municipal collection and disposal as directed in § 184-5 of this chapter, unless otherwise directed by the Director of Public Works or his or her designee.

§ 184-8. Employee report of noncompliance is amended to read as follows:

Any Township employee who observes noncompliance with any of the regulations of § 184-5 herein shall immediately notify the Director of Public Works or his or her designee. The Director of Public Works and or his or her designee shall provide notice to the occupant of the violation and direct that said refuse not be collected until the violation is abated.

BE IT FURTHER ORDAINED, that if any section, paragraph, subsection, clause or provision of this Ordinance shall be adjudged by the courts to be invalid, such adjudication shall apply only to the section paragraph, subsection, clause or provision so adjudicated, and the remainder of the Ordinance shall be deemed valid and effective.
