COVID-19 VACCINE

Quick Facts

PROTECTION
COVID-19 vaccination will help protect you from getting COVID-19.

EVALUATION
COVID-19 vaccines have been carefully tested and evaluated in large clinical trials. Monitoring and evaluation are ongoing.

TWO DOSES
The COVID-19 vaccine requires two doses, several weeks apart, to be effective.

SIDE EFFECTS
Pain and swelling may occur where you got the shot. Other side effects may feel like the flu, but they should go away in a day or so.

COMBINATION
The combination of this vaccination with other precautions will offer the best protection from COVID-19.

PRECAUTIONS
Before and after vaccination: wear a mask, social distance from others, avoid crowds, and wash hands often.
