Re: Release of Bond and Escrow Accounts of 1476 Sutter Avenue Parking Lot

Dear Michael Hritz

I would like to thank you and all departments of North Brunswick Township for their support to complete the development and construction of the school bus parking lot of Mercy transportation. Having school bus parking lot in the township helped in providing cost effective services to the township board of education and that was very clear in the recent years and based on my commitment to the zoning board that Mercy will help the township in providing cost effective services.

I hereby, after all construction is completed, request the township to release Mercy Transportation's construction bond and escrow accounts held by the township.

Thank you
