

Construction of upgrades and improvements to the Township of North Brunswick's Mile Run Interceptor were financed by the New Jersey Infrastructure Financing Program (NJEIFP). The total project costs are estimated to be \$2,669,776.00. The NJEIFP is a State Revolving Fund program jointly administered by the New Jersey Department of Environmental Protection (DEP) and the New Jersey Environmental Infrastructure Trust (Trust) and uses a combination of funds provided by the United States Environmental Protection Agency, the DEP, and the Trust to provide very low interest loans to borrowers for environmental infrastructure projects.

This project will provide water quality benefits by replacing sanitary sewer pipes that have reached the end of their useful life, which will create increased resiliency and efficiency for residents and businesses in the Township of North Brunswick.

State Revolving Fund programs around the nation provide states and communities the resources necessary to maintain and improve the infrastructure protecting our valuable water resources nationwide.

Construction of upgrades and improvements to the Township of North Brunswick’s Wastewater Collection and Water System along Livingston Avenue were financed by the New Jersey Environmental Infrastructure Financing Program (NJEIFP). The total project cost is estimated to be \$6,425,393.00. The NJEIFP is a State Revolving Fund program jointly administered by the New Jersey Department of Environmental Protection (DEP) and the New Jersey Environmental Infrastructure Trust (Trust) and uses a combination of funds provided by the United States Environmental Protection Agency, the DEP, and the Trust to provide very low interest loans to borrowers for environmental infrastructure projects.

This project will provide water quality benefits by replacing outdated and undersized mains, which will create increased resiliency and efficiency for residents and businesses in the Township of North Brunswick.

State Revolving Fund programs around the nation provide states and communities the resources necessary to maintain and improve the infrastructure protecting our valuable water resources nationwide.
