Hi Jordan,

Thanks so much for following up, yeah I got a plumber check again and found no issues with the initial installation, he rechecked to make sure things were installed correctly that's all. From the data, looks like the issue has been resolved and in range within normal usage.

I plan on drafting that letter to you later today to get the bill readjusted to normal bills as the tenant won't be able to pay.

Thanks again for following up!

Unfortunately, tenant is on section 8 and senior citizen so I'm afraid this amount might be challenging for her to cover

Hi Amanda,

I hope you had a great weekend! I checked the unit and the tenant confirmed that they hear the toilet running randomly sometimes. Based on the assessment, I'd have to change the entire toilet, which hasn't been changed in over 20 years. I'll need about a month to gather the funds for this project.

Can you let me know what the tenant's options are regarding the \$600 bill? The major issue has been mitigated, and it's just a matter of solving the minor leak now.

Thanks,

Kwabena

Sunday August 6<sup>th</sup>

Monday August 7<sup>th</sup>

Just from experience it seems to still be a toilet issue unless they have something else going on.. for example a dripping faucet.

I would just double check all outlets in the home that use water.

Hi Amanda,

I hope you're doing well.

I'm writing to follow up on our conversation about the high water bill. The plumber I called yesterday was able to fix the leak in the toilet. I paid for the service through the Thumbtack app, so I don't have a paper receipt. However, I've attached a copy of my bank statement and my conversation with the plumber on the Thumbtack app as proof of payment.

Please let me know if you have any questions. You can reach me at 347-350-4165.

Thank you,

Kwabena

Dear North Brunswick Water Council,

I am writing to request an adjustment to my water bill for my property at 5 Jerome Place. My tenant is on Section 8 and is unable to pay the current bill, which is for \$400.

I have already addressed the issue that caused the high water usage. A plumber came to the property and repaired a leak in the toilet. The water is now being used in a normal range.

I understand that you have a policy of not adjusting water bills for past usage. However, I believe that this is a special case. My tenant is on a fixed income and cannot afford to pay this large bill. I am also unable to afford to pay for them.

I would be grateful if you would consider adjusting their water bill to the normal range. I would be happy to provide any additional information that you need.

Thank you for your time and consideration.

Sincerely,

Joseph Abankwa & Verna Hill (Tenant)
