Re: 1270 South Barkley Place, North Brunswick Township, New Jersey

Dear Sir/Madam:

As you may recall from my previous correspondence to you dated September 8, 2023, in reference to the property you own located at 1270 South Barkley Place, North Brunswick, New Jersey, this office is legal counsel to the Township of North Brunswick and I serve as the Township Attorney. My previous correspondence to you dated September 8, 2023 showed that the inspections of the above-referenced property by the Construction Official's Office resulted in failures as to both the footings and foundation. That previous correspondence notified you that there had been no construction activity at the site for an extended period of time and accordingly, pursuant to N.J.A.C. 5:23-2.16(b), the construction permits were suspended. As further advised, the work on the project at the subject property had been abandoned for a period in excess of six

months and, therefore, new construction permits would be required. Since that time, there has been no progress and new construction permits have not been issued.

PLEASE TAKE FORMAL NOTICE that the subject property located at 1270 South Barkley Place, North Brunswick, New Jersey is an unsafe structure. Attached is a Notice and Order to Pay Penalty based on an inspection of the subject property on February 21, 2024. You must immediately seek new building permits to address the unsafe structure and proceed with construction. Failure to obtain the building permits within 15 days and begin construction within 30 days will result in the Township issuing an Order to remove the foundation, backfill the property and restore the subject property to its natural state within an additional 15 days or the Township of North Brunswick will exercise its emergency powers and complete the necessary activities to remediate the unsafe structure violation at your cost and expense which will be collectible as a lien against the property in the same manner as real estate taxes.

The choice is yours. You can either take the appropriate actions to remedy the unsafe structure on your property or the Township will take those actions under its emergency powers at your cost and expense and lien the property. If it becomes necessary for North Brunswick to obtain any Superior Court of New Jersey order, the Township of North Brunswick will seek to hold you liable for any and all costs and attorney fees incurred by the Township as a result of your failure to live up to your obligations.

Very truly yours,

RAINONE COUGHLIN MINCHELLO, LLC

1270 South Barkley

5:23-2.17 Demolition or removal of structures; abandoned wells

(a) Service connections: Before a structure can be demolished or removed, the owner or agent shall notify all utilities having service connections within the structure, such as water, electric, gas, sewer and other connections. A permit to demolish or remove a structure shall not be issued until releases are obtained from all utilities that provided service to the property, stating that their respective service connections and appurtenant equipment, such as meters and regulators, have been removed or sealed or plugged in a safe manner.

(b) Abandoned wells:

1. In the event that there is a well on the property that has been abandoned, or that will be abandoned in conjunction with the proposed demolition, a permit to demolish or remove a structure on that property shall not be issued until a certification has been obtained from a well driller licensed by the Department of Environmental Protection indicating that the well has been sealed in accordance with N.J.A.C. 7:9-9. If such certification is not presented within 15 days of the application for the permit, the construction official shall give notice of the absence of such certification to the Bureau of Water Allocation, Department of Environmental Protection, PO Box 029, Trenton, NJ 08625-0029.

2. Notice shall also be given by the construction official to the Bureau of Water Allocation in the event of any demolition activity found to have been undertaken without a permit at a building or premises currently or previously served by a well and in any other case in which no permit application for demolition has been made but the construction official becomes aware that a well has been, or is about to be, abandoned without having been sealed by a licensed well driller.

(c) Notice to adjoining owners: Only when written notice has been given by the applicant to the owners of adjoining lots and to the owners of wired or other facilities, of which the temporary removal may be necessitated by the proposed work, shall a permit be granted for the demolition or removal of a building or structure.

(d) Lot regulation: Whenever a structure is demolished or removed, the premises shall be maintained free from all unsafe or hazardous conditions by the proper regulation of the lot, restoration of established grades and the erection of the necessary retaining walls and fences in accordance with the provisions of the appropriate subcodes.

(e) Asbestos abatement: Before a structure can be demolished or removed, the owner or agent shall document that the requirements of USEPA 40 CFR 61 subpart M have been or shall be met. A permit to demolish or remove the structure shall not be issued until the owner or agent notifies the enforcing agency that all friable asbestos or asbestos-containing

material that will become friable during demolition or removal has been or will be properly abated prior to demolition.

Amended by R.1993 d.198, effective June 7, 1993.
 See: 24 N.J.R. 1422(a), 25 N.J.R. 2519(b).
 Amended by R.1993 d.420, effective September 7, 1993.
 See: 25 N.J.R. 2158(a), 25 N.J.R. 4072(a).
 Amended by R.1997 d.409, effective October 6, 1997.
 See: 29 N.J.R. 2736(a), 29 N.J.R. 4281(a).
 Amended by R.1998 d.36, effective January 5, 1998.
 See: 29 N.J.R. 4214(a), 30 N.J.R. 193(a).
 Added (b); and recodified existing (b) through (d) as (c) through (e).

5:23-2.17A Minor work

(a) The issuance of a permit shall not be required before minor work may proceed. The owner, or an architect or contractor acting on behalf of the owner, shall, however, provide notice of the work to the enforcing agency before work begins.

(b) Notice of work; application:

1. Notice of minor work shall be oral or written and submitted in person or electronically to local enforcement agency and shall be given before work commences. Notice shall include a brief summary and the location of the work to be performed. Such notice shall be consent for the enforcing agency to enter and inspect in the same manner a permit application is consent.

2. In addition to the notice, the owner or his or her agent shall be required to file a permit application. The completed permit application shall be delivered in person or by mail to the enforcing agency, within five business days from the date of the notice. The fee shall be paid prior to the issuance of the construction permit.

(c) Minor work:

1. Minor work shall mean and include:

i. The construction or total replacement of any porch or stoop that does not provide structural support for any roof or portion of a building;

ii. Renovation or alteration work in an existing one or two-family dwelling, provided that no primary structural members are altered in any way, and further provided that the work does not constitute reconstruction; and

iii. Repair or replacement with no reconfiguration of space of any non-structural component such as a partition in structures other than one- and two-family dwellings; or

iv. Repair and/or renovation work in a Group B, Group F, Group M, or Group S occupancy performed in accordance with N.J.A.C. 5:23-6, but shall not include work categorized as ordinary maintenance pursuant to N.J.A.C. 5:23-2.7.
