Dear Steve,

Following Kate's discussion with the owner, please note the following modifications regarding restroom tile installation:

- All wall tile shall be **T-2 only**, installed in a subway layout.
- **T-4 and T-5** are to be eliminated.
- G. Meyer shall confirm the availability of T-2 and ensure the required quantity is provided.

Please treat this as an official directive to initiate the process. A formal Field Bulletin will follow shortly. Additionally, we anticipate a credit to the Owner for this change.

Kindly confirm receipt of this email and advise if any further clarification is required.

Thank you for your attention to this matter.

Best regards,

Anthony J. Marsal

Subject: elevations

Anthony

As per our phone conversation I understand you are out in the field today. On plan A-801 detail 1 of selective finish notes it refers us to elevation for location of accent tile. I do not see any elevations for this. Can you direct me to the right page?

Thank you

Steve
